PROJECTS

07/2022-07/2022
DESKTOP-DASHBOARD

REACT DASHBOARD FOR DESKTOP

I have created a Desktop support admin dashboard in ReactJs. In this project, I used React Hooks and Context API. also added dark and light mode functionality in this project. I am still working on this project to add more react functionalities.

E-COMMERCE WEBSITE

E-COMMERCE WEBSITE IN REACT USING REDUX.

This simple eCommerce website is built in ReactJS. We are using Bootstrap for styling and Fetch API to get products data. We also added Filter Product Functionality to filter Products. use Skeleton Loading when calling API. Also using Redux we can add and remove products in cart
